

## AAEAA

Established in the State of Texas in 2006, the Arab American Engineers and Architects Association is non profit, non political, non religious professional organization. It is open to all engineers, architects, computer science professionals and students of the Arab heritage residing in USA. The AAEAA is headquartered in the city of Houston and serves the entire state of Texas.

## Mission statement

To help deliver and foster multi-disciplinary professional growth, develop understanding, increase multi-cultural awareness, establish engineering and scientific enhancement programs for the members, all for the betterment of the local community and society as a whole.

## Objectives

The objectives of AAEAA are:

- The advancement of the public safety, welfare and the professional, social and economic interests of its members.
- Networking through social and professional events.
- Provide training and consulting programs for professional and personal development.
- Share knowledge and information among our members and other societies for professional as well as personal growth and development.
- Promote guidance and assistance to members, students and new graduates to enhance their careers.
- Create networking contacts and career opportunities within the profession.
- Establish rewards and recognition for innovation, design, research and professional training in the community.

## Membership

It is for any Arab or Arab ancestry residing in USA who holds an Engineering degree, Computer Science, or Architecture degree from an accredited institution verified by the Executive Board in accordance with the national standards.
